OBJECTIVE

Self-taught with a proven record of commitment to learning and dedication to the team 'till the wheels fall off.

EXPERIENCE

Software Engineer, Black Willow, Inc.
April 2019 – Present • Northern VA
Is a software engineer working with application development and systems engineering that support a variety of U.S. government agencies and non-profit organizations.

• Developing software that automates a complex workflow, cutting a two-month routine process into ten minutes.
• Developed and integrated numerous custom front-end Qlik extensions and applications using JavaScript and CSS.
• Wrote software that automated the cleaning and associations of large relational databases using Python and Bash.

Professional Tuba Player, D&B Co. MBW, U.S. Marine Corps
November 2014 – November 2018 • Washington, DC
Along with regular Marine duties, performed tuba in "The Commandant's Own", the premier U.S. Marine Corps music ensemble, for foreign dignitaries and presidential audiences at home and abroad.
• Volunteered to handle Public Affairs of the company, starting and finishing a total of 87 graphic art projects for a total U.S. Dept. of Labor estimated savings of $465,000. Received official recognition for this role.
